Media Advice for Teachers

The screenshot shows the VCAA website interface. At the top, there's a search bar and navigation links. The main header features the VCAA logo and the text 'VICTORIAN CURRICULUM AND ASSESSMENT AUTHORITY'. Below this is a navigation menu with links: Home, About us, Educators, Parents, Students, Notices and Bulletins, and Excellence and Awards. The left sidebar contains a 'Media' section with a list of links: Introduction, General assessment advice, Developing a program (with sub-links for Overview and School-assessed Task), Teaching and learning activities (with sub-links for Unit 1, Unit 2, Unit 3, and Unit 4), Sample approaches to developing an assessment task (with sub-links for Unit 3 and Unit 4), Performance descriptors, and Employability skills. The main content area displays a banner for 'VCE Advice for teachers' for Media (2018-2022). Below the banner, the 'Introduction' section states: 'The VCE Media study design 2018–2022 Advice for teachers provides teaching and learning advice for Units 1 to 4 and assessment advice for school-based assessment in Units 3 and 4. The program developed and delivered to students must be in accordance with the [VCE Media Study Design 2018–2022](#).' The footer contains four columns of links: Corporate Information (Contact Us), Careers (Employment), Media (Media Enquiries), and Subscriptions (VCAA Bulletin).

Cross-study specifications

For the purposes of this study the following specifications apply. Specific details of the scope of each specification are provided in the unit overviews and in the introduction to the relevant areas of study.

Media products

Media products are the consumable output designed by media creators and producers that are distributed to, engage with, consume and are read by audiences. Media products may be described as tangible or intangible. Tangible media products are determined by the length of time an audience will engage with the product. For intangible products, the creator or producer structures the time the audience will engage with the product.

Media forms

Media products are designed and produced in a wide variety of media forms. The construction of a media product is dependent on the style and genre of the product and the intended audience, location, context and time in which the product was created, produced, distributed, consumed and read by audiences. Media forms refer to technological means and channels by which the media is created, produced, distributed, consumed and read. Media forms include:

- Moving image, for example film, television, video, animation
- Still image, for example photography
- Audio, for example radio, podcast
- Print, for example magazine, zine, comic, graphic novel, newspaper, poster
- Digital, for example online video and audio, streaming video and audio, podcast, magazine, comic, graphic novel, newspaper, video game, blog, website, app
- Convergent or hybridised media: the combination or joining of two or more media forms, such as photography and animation, print productions and a digital game, augmented and virtual reality products.

Media technologies

Analogue and digital technologies used in the creation, visualisation, planning, production, distribution, consumption and reception of media products.

Media narratives

In VCE Media, narrative is used to describe fictional and non-fictional media stories in all media forms. In narratives the term 'story' refers to all events that contribute to the narrative.

Fictional and non-fictional stories are fundamental to the media and are found in all media forms. Media industries such as journalism, filmmaking, publishing and photojournalism are built upon the creation and distribution of stories. Stories are constructed in the form of a systematically organised series of interconnected images, sounds and/or words using media codes and conventions. The creator and the audience share an understanding of both the construction, distribution of, consumption and reception of stories. Digital media forms enable creators and participants to develop and distribute stories in hybrid forms including collaborative and user-generated content, which challenges the traditional understanding of story forms and advances new modes of audience engagement.

Cross-study specifications

Pge 9 – 11 Media Study Design

VCE Media 2018–2022

Written examination – End of year

Examination specifications

Overall conditions

The examination will be sat at a time and date to be set annually by the Victorian Curriculum and Assessment Authority (VCAA). VCAA examination rules will apply. Details of these rules are published annually in the *VCE and VCAL Administrative Handbook*.

There will be 15 minutes reading time and 2 hours writing time.

The examination will be marked by a panel appointed by the VCAA.

The examination will contribute 40 per cent to the study score.

Content

The *VCE Media Study Design 2018–2022* is the document for the development of the examination. All outcomes in Units 3 and 4 will be examined.

All of the key knowledge and key skills that underpin the outcomes in Units 3 and 4, and the content of the 'Cross-study specifications' in the study design (pages 9–11), are examinable. Students will not be required to produce media products in the examination.

Format

The examination will be in the form of a question and answer book.

The examination will consist of two sections.

Section A will consist of short-answer and extended-answer questions, including questions with multiple parts. Questions may be drawn from any area of study and may refer to visual and/or written material. Questions relating to Unit 3, Area of study 2 and Area of study 3, and Unit 4, Area of study 1 will require students to write on the media production process for their media product in their selected media form, as defined on pages 22 and 23 of the study design. Section A will be worth a total of 55 marks.

Section B will consist of two extended-answer questions derived from Unit 3, Area of study 1 and Unit 4, Area of study 2 worth 10 marks each. Section B will be worth a total of 20 marks.

Questions relating to Unit 3, Area of study 1 in both sections will require students to write on the media product(s) selected for study, as defined on page 20 of the study design.

Unit 3, Area of study 1 and Unit 4, Area of study 2 will each contribute 40 per cent to the total marks for the examination. Unit 3, Area of study 2 and Area of study 3, and Unit 4, Area of study 1 will contribute a combined total of 20 per cent to the total marks for the examination.

Administration Dates & Assessment Schedule

The screenshot shows the VCAA website's 'Important Administrative Dates and Assessment Schedule' page. The page has a navigation bar with links: Home, About us, Educators, Parents, Students, Notices and Bulletins, and Excellence and Awards. The breadcrumb trail is 'Home > School Administration > Administrative Dates and Assessment Schedule'. The main heading is 'Important Administrative Dates and Assessment Schedule'. The text explains that important administrative dates for VCE and VCAL are published annually in Term 4. It mentions that changes are communicated via the 'VCAA Bulletin' and that reminders are issued via 'Notices to Schools'. There are three main sections: '2018 Important Administrative Dates', '2018 Assessment Schedule', and '2017 Important Administrative Dates'. The '2018 Important Administrative Dates' section states that the dates are available in two formats: iCalendar (ics - 1.08kb) and Microsoft Word (docx - 105.66kb). The '2018 Assessment Schedule' section states that the 2018 Assessment Schedule (docx - 94kb) should be used in conjunction with the 2018 Important Administrative Dates. The '2017 Important Administrative Dates' section states that the 2017 Important Administrative Dates are available in two formats: iCalendar (ics - 93.8kb) and Microsoft Word (docx - 105.3kb). Two large blue arrows point from the right towards the download links for the 2018 Important Administrative Dates and the 2018 Assessment Schedule.

Home > School Administration > Administrative Dates and Assessment Schedule

Important Administrative Dates and Assessment Schedule

Important administrative dates concerning the VCE and the VCAL are published annually in Term 4 for the following calendar year.

Any changes to these dates that occur during the course of the year will be communicated to schools and providers via the *VCAA Bulletin*. The dates and information published here will then be updated accordingly.

Reminders about dates and information about the purpose of the data collected on these dates will be issued via Notices to Schools during the year.

2018 Important Administrative Dates

The *2018 Important Administrative Dates* is available in two formats:

Assessment in the VCE

VCE studies have three graded assessments in Units 3 and 4. VCE VET studies have two graded assessments. In each study the graded assessments include a mix of school-based assessment and external examination, and the Victorian Curriculum and Assessment Authority (VCAA) combines each student's scores for these assessments into a single Study Score.

The external examinations may be written, performance or oral examinations. There are two forms of school assessment – coursework assessment and School-assessed Tasks. Most studies, including VCE VET studies, have coursework as the form of school assessment. The studies that have School-assessed Tasks are Art, Design and Technology, Food and Technology, Media, Studio Arts, Systems Engineering and Visual Communication and Design.

Details of the graded assessments in each study are provided in VCE Study Designs, Assessment Guides and other VCAA publications.

<http://www.vcaa.vic.edu.au/Pages/vce/exams/statisticalmoderation/statmod.aspx>

School-based Assessment Audit

- All VCE providers are audited for at least one VCE study each year.
- All VCE studies are subject to the audit – includes both SACs and SATs.
- Checks that school-based assessment is conducted in line with VCAA principles of assessment and the requirements of the relevant study design, using appropriately designed tasks.

Outcomes of the audit

- **School-based Assessment Audit is in four stages:**
 - Stages 1 and 2 – Unit 3
 - Stages 3 and 4 – Unit 4
- **Outcomes of the audit:**
 - Meets requirements.
 - Further evidence is required.
 - Immediate follow up with Curriculum Manager required.

Audit dates 2018

Audit Stage	Date
Providers notified of Unit 3 Online Questionnaire	26 February
Unit 3 Questionnaire closes	19 March
Providers notified of Outcome of Unit 3 Questionnaire	07 May
Further Evidence Unit 3 Audit Due	21 May
Providers notified of Further Evidence Unit 3 result. Unit 4 Online Questionnaire opens	16 July
Unit 4 Online Questionnaire closes	06 August
Providers notified of outcome of Unit 4 Questionnaire	10 September
Further Evidence Unit 4 Audit due	24 September
Providers notified of Further Evidence outcome Unit 4	29 October

Authentication

Authentication Record Form VCE Media School-assessed Task 2018

This form must be completed by the class teacher. It provides a record of the monitoring of the student's work in progress for authentication purposes. This form is to be retained by the school and filed. It may be collected by the VCAA as part of the School-based Assessment Audit.

Comments

UNIT 3

Criterion 1 Production Exercises

The production exercises explore media production specifications for film and present ideas about 'teenage angst and time'. There are competent skills in camera angles and lighting presented in the two production exercises. There is an understanding of how the aesthetic qualities and structural qualities of these exercises contribute to the effect and engagement of the audience in keeping with the planned production. There is a statement of intention and evaluation for each exercise using relevant media language and terminology.

Criterion 2 Production Plan

The plan has a sense of purpose for a specified audience with written documentation and visual representations. There is an understanding of production codes and conventions appropriate to film production. There is research that supports the production plan. The proposal considers the production and includes a storyboard, script and other production notes.

UNIT 4

Criterion 3 Production: Styles, codes and conventions

An understanding of the codes and conventions and style of black humour is evident in the production. There is an understanding of editing and lighting in the production. For example

Criterion 4 Production: Audience

The production is appropriate to the teenage audience as the story line engages the audience through the sequencing of scenes and the style of the film. For example:

Ideas about the future and the demand of time on individuals is clearly shown in the scenes eg.....

MEDIA

Student Feedback sheet sample

The School Assessed Task

VCE Media SAT

Scope of Task

Scope of Task

Outcomes	Assessment tasks
Unit 3 Outcome 2 Research aspects of a media form and experiment with media technologies and media production processes to inform and document the design of a media production.	<ul style="list-style-type: none">• A research portfolio and accompanying documentation examining aspects of the selected media form.• Production exercises with accompanying documentation that demonstrate a range of skills in the use of media technologies and production processes relevant to the student selected media form.
Outcome 3 Develop and document a media production design in a selected media form for a specified audience.	<ul style="list-style-type: none">• A media production design plan based on the selected media form identified in Unit 3, Outcome 2.
Unit 4 Outcome 1 Produce, refine and resolve a media product designed in Unit 3.	<ul style="list-style-type: none">• A media product developed from the media production design produced in Unit 3.

Scope of Task

The media production design plan is developed in one of the following media forms:

- A video or film production of 3–10 minutes in length, including title and credit sequences.
- An animated production of no more than 10 minutes in length, including title and credit sequences.
- A radio or an audio production of a minimum of 8 minutes in length, including title and credit sequences.

Scope of Task

- A digital or an analogue photographic presentation, sequence or series of a minimum of 10 original sourced images shot, processed and edited by the student.
- A digital or traditional print production of a minimum of 8 pages produced and edited by the student.
- A digital and/or an online production that demonstrates comparable complexity consistent with the other media forms.

Scope of Task

- A convergent or hybridised media production that incorporates aspects of a range of media forms and is consistent with product durations and the descriptors listed.

Media Choice

- Choose media forms that are right for your school, your equipment and your students.

Scope of Task

The production ranges for the different media forms indicate the production length considered appropriate to undertake while meeting the criteria for the award of grades.

Scope of Task

- The task must be undertaken **individually**.
- Group production work and group media production design plans are not appropriate.
- Productions must have a narrative.

Scope of Task

- There is a huge range of skills and interests across the state.
- There are many ways to approach the SAT.

Managing the School Assessed Task

Timelines, authentication,
copyright, safety and wellbeing

Timelines

- The following elements of the SAT will be completed in Unit 3:
 - Research portfolio
 - Production **experiments**
 - Production design
- Teachers will submit grades for Criteria 1-4 on the SAT by June 15.

Timelines

- **Production Design Plan**
 - Term 1, Week 1: Ideas.
 - Term 1, Week 3: Pitch.
 - Term 1, Week 8: Research portfolio.
 - Term 2, Week 1: Written planning.
 - Term 2, Week 3: Narrative and Ideology SAC.
 - Term 2, Week 4: Production experiments
 - Term 2, Week 5: Production experiments
 - Term 2, Week 6: Storyboards.
 - Term 2, Week 8: Production design

Safety and Wellbeing

- “It is the responsibility of the school to ensure that duty of care is exercised in relation to the health and safety of all students undertaking the study. This duty of care extends to activities and productions undertaken outside the classroom. Teachers should ensure that students are aware of health and safety in regards to themselves, their environment and others.” p.7.

Safety and Wellbeing

- “Students should seek permission from the relevant authority before filming or recording in public locations. The selection of content and media products for study across Units 1 to 4 is a school decision and should be appropriate and acceptable for the specific school culture and environment.”

Safety and Wellbeing

- My statement (not the VCAA):
- The School Assessed Task will not include guns, drug use, excessive or gratuitous violence, nudity, sex scenes, driving, suicide the consumption of alcohol, use of cigarettes, any illegal or potentially dangerous acts or any acts that may be deemed inconsistent with the values of our community.

Authentication

- “The production of the media product should be **undertaken individually** and communicate the student’s ideas and concepts. However, the implementation of the production design may require the collaboration of others to realise the student’s intentions as developed in the media production design plan. Any assistance including advice and/or support in the production stage from professionals; such as camera and lighting operators and/or actors and external production processes for print or photography should be **documented in the production design documentation.**”- Administration information for School-based Assessment, p. 4.

Authentication

- “**Production notes** should support effective completion of the product, record changes made during the process that demonstrate the development of the student’s appropriate skills and knowledge to support management and creative direction.”- Administration information for School-based Assessment, p. 4.

JENNA TANG FILM Shotlist - Shot List

SCENE 3									
3	1	MS	00:00:03	Interview shot	Interview shot		35mm lense, VCE tripod	I do a lot of photography...	
3	2	MCU	00:00:03	Interview shot	Interview shot		35mm lense, VCE tripod	...especially film photography because...	
3	3	FS	00:00:03	City streets	Displaying Em's face, she looks to the left and sees Kristin then smiles.		35mm lense, VCE tripod	...the product and effect that is produced using film...	looks GR 3
3	4	MS	00:00:03	City streets	Wipe by cut of someone walking past the camera, Kristin hugs Em.		35mm lense	...is always so intriguing.	
3	5	MCU	00:00:02	City streets	Kristin's camera hanging from her neck	Film camera	35mm lense		didn't think this was necessary
3	6	MS	00:00:00	City streets	Tracking shot taken from Em's side, she looks at Kristin, and Kristin looks at her then smiles. (it's too similar to the previous full shot & is unnecessary)		35mm lense		
3	7	MS	00:00:03	Interview shot	Interview shot		35mm lense, VCE tripod	I take photos of my friends a lot...	
3	8	MCU	00:00:03	Interview shot	Interview shot		35mm lense, VCE tripod	...because I love the raw emotion I am able to capture	
3	9	CU	00:00:03	Interview shot	Interview shot, Kristin smiles		35mm lense, VCE tripod	It's very empowering for me be...	
3	10	MS	00:00:02	City streets	Kristin and Em walking side by side up Little Bourke Street, low angle shot			...cause I get to let some...

16/06/2017 11:32:40

10

added a shot - side view from up the stairs following from 4.1,

Authentication

- “Variations to the plan made during its implementation should be **documented and attached** to the media production design as submitted for Outcome 3 in Unit 3.” - Administration information for School-based Assessment, p. 5.

Authentication

- “Documentation of photographic, digital and print materials must include **brief notes** in the production design. The realisation of the production design should be evident in the annotations. The annotations should state the reason for the variation. Variations should be clearly differentiated from the original production design.”

Authentication Record Form VCE Media School-assessed Task 2018

This form must be completed by the class teacher. It provides a record of the monitoring of the student's work in progress for authentication purposes. This form is to be retained by the school and filed. It may be collected by the VCAA as part of the School-based Assessment Audit.

Student name Student No.

Comments

UNIT 3
Criterion 1
Criterion 2
Criterion 3
Criterion 4

Authentication

- Authenticating work requires regular sightings.
- The Authentication Sheet is the school's record of this. It must be “retained by the school, sighted by the principal and filed”.
- It may be required by the VCAA for the Coursework Audit and on Season of Excellence Submission.

Authentication

- The 'Administration information for School-based Assessment in 2018' features advice for authentication on Page 17.
- Let's take a look at some of these points now.

Authentication

1. Fill in the Authentication Record Form.
2. Assistance must be documented in the production design, acknowledge in the production and the SAT must be under the **sole direction** of the student.
3. Be vigilant about undue assistance, do not do students' work for them.
4. Teachers monitor and record progress.

Authentication

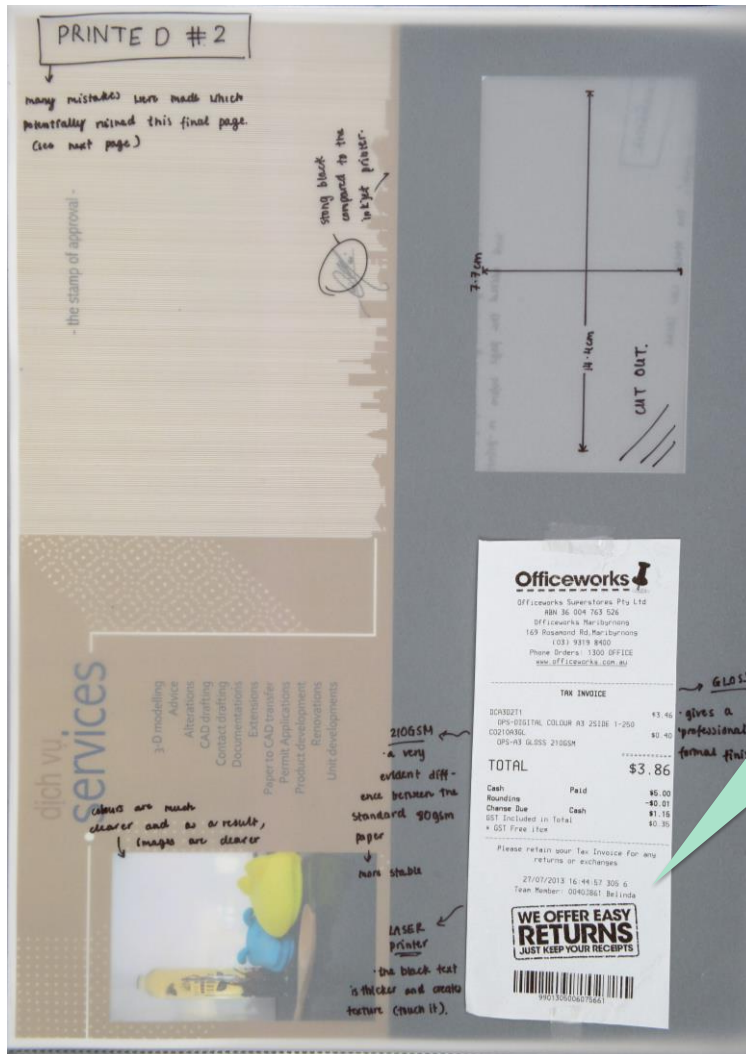

5. External support and/or equipment is documented in the production design and 'appropriately limited'.
6. Annotated production design is a key reference for assessment of the product.
7. Visual and written planning documents are required for authentication - make this clear to students.

Authentication

10. Students are required to acknowledge all sources of inspiration throughout the production design process. This can be done by noting specific titles and publication dates of texts and/or magazines and/or URL addresses for websites where images have been sourced.

Printing

- There is no longer a requirement that students print their own photographs or print productions. - Page 23 of the VCE Media Study Design.
- However, they will need to provide documentation for authentication purposes of their management of the print process. (Point 5) under Authentication.

From Visual Communication Design

The ideal student.

They discuss paper choices (gloss), paper weight 210GSM versus 80 GSM) AND Laser printer versus inkjet.

This student is in control!

Copyright

- Students may use copyrighted material - such as music, images and footage - in their production.
- The source of this material must be documented in the production design plan.

Copyright

- However, the use of pre-existing material may affect the student's ability to produce an individual and distinctive product.
- Students cannot be marked for material that is not theirs.
- This extends to InDesign templates, pre-existing video assets and 3D models.

Copyright

- “While students **may incorporate pre-existing material** in media productions, the use of such material may detract from the student’s capacity to develop an **individual and/or distinctive product** and may not allow a student the opportunity to fully demonstrate management and organisational skills. Any use of pre- existing material should be documented in the production design plan citing the source of the material with reference to recordings or websites.”

Copyright

- If students wish to exhibit or publish their work outside the classroom, including festivals like Top Screen, they will need written permission from the copyright holders for all material.
- **Check out:** “Copyright guidelines for VCE Season of Excellence” on the Season of Excellence webpage.

- Some alternatives:
 - Creative commons.
 - Public domain.
 - Royalty free
 - Original music.

Unpacking the School Assessed Task

Research portfolio, exercises,
production design and production

The SAT

Outcomes	Assessment tasks
Unit 3 Outcome 2 Research aspects of a media form and experiment with media technologies and media production processes to inform and document the design of a media production.	<ul style="list-style-type: none">• A research portfolio and accompanying documentation examining aspects of the selected media form.• Production exercises with accompanying documentation that demonstrate a range of skills in the use of media technologies and production processes relevant to the student selected media form.
Outcome 3 Develop and document a media production design in a selected media form for a specified audience.	<ul style="list-style-type: none">• A media production design plan based on the selected media form identified in Unit 3, Outcome 2.
Unit 4 Outcome 1 Produce, refine and resolve a media product designed in Unit 3.	<ul style="list-style-type: none">• A media product developed from the media production design produced in Unit 3.

Area of Study 2

Media production development

Media productions develop out of that which has come before. Media creators and producers frequently reference ideas and techniques that have been developed by others. Collecting, acknowledging and building upon ideas, structures, aesthetics and techniques informs the direction of media productions and an understanding of how audiences are engaged. Students investigate and research a selected media form to inform the development of their proposed production. This research contributes to the direction of their production design.

Students conduct an investigation of aspects of the media form in which they will work, developing knowledge of narrative, genre, style, media codes and conventions and aspects of the works of media practitioners relevant to their proposed production. Students develop production skills that inform the production, design and development of a media product. They record their learning in documented research, annotated production activities, experiments, exercises and reflections.

Outcome 2

On completion of this unit the student should be able to **research** aspects of a media form and **experiment** with media technologies and media production processes to **inform and document the design** of a media production.

Key knowledge

- media codes and conventions, narrative, genres and styles appropriate to the selected media form
- structural and aesthetic qualities of media products that engage with and are read by audiences
- research that informs the exploration and development of ideas and skills in a selected media form
- methods for recording, documenting and evaluating research
- media equipment, technologies and processes appropriate to a selected media form and proposed product
- media language.

Key skills

- explore media codes and conventions, narratives, genres and styles appropriate to the selected media form
- analyse how audiences are engaged by structural and aesthetic qualities of media products
- analyse how audiences use structural and aesthetic qualities to read media products
- undertake research to inform the exploration and development of ideas and skills in a selected media form
- record, document and evaluate the exploration and development of ideas and skills in a selected media form
- develop skills in the use of equipment, media technologies and processes appropriate to a selected media form and proposed product
- evaluate the use of equipment, media technologies and processes of the proposed product through documentation
- use media language.

Research Portfolio

- The research portfolio will include:
 - Investigation into narrative, genre, style, media codes and conventions, and the characteristics of the works of practitioners to inform the students' production in a selected media form.
 - Exploration of audience characteristics including the consumption of, engagement with and readings of works in the selected media form and analysis of how these references will assist the student in developing their own individual style.

Production experiments

- The production experiments will include:
 - Exploration and use of technologies, equipment, materials and processes in forms relevant to the student's proposed media product that develops skills and investigates techniques, aesthetic and structural qualities.
 - Evaluation of the use of equipment, media technologies, equipment, materials and processes that informs the students' proposed production.

Production experiment

- Each production activity or experiment should include documentation that contributes to the assessment of this outcome. The documentation should use appropriate media language and terminology.

Production experiments

- The exercises, experiments and activities are just that.
- It is not expected that they will be complete productions.

Ideas for Production Experiments

Documentary example

- Students will complete exercises '**relevant to the production**'.
 - **Interview.** Find someone to interview for your documentary. Write a series of open-ended interview questions and practice asking questions that elicit a detailed response. Consider using rule of thirds to compose these shots. When lighting the subject, think about how you can use available lighting, including desk lamps and natural light to illuminate the subject of your interview.
 - **B-roll.** In a documentary, nothing is more tedious than lingering on a talking head for too long. During your interview, you will need to engage the audience by cutting to b-roll footage. Once you have interviewed a subject, practice filming appropriate b-roll footage that suits this purpose. Think about how you can use composition, colour, focus, depth of field and camera movement to make these shots more interesting.

Planning the experiment

- **Style and aesthetic qualities.** What are the aesthetic qualities I will be exploring in this experiment? These aesthetic qualities might relate to an aspect of your production experiment such as framing or lighting. If you are filming an interview, for example, you might explain how you are going to conventionally frame up each of the shots using rule of thirds. If you are filming a conversation, you might explain how you are going to use conventions like look room and headroom. Exploring the lighting typically used in film noir? You would comment on how you are going to achieve this style of lighting.

Planning the experiments

- **Technical equipment.** What technical equipment are you going to use? Include a relevant description of the technical equipment you intend to use. It is not necessary to include long descriptions of the camera's features unless they are relevant to your production. If you are using a digital SLR, for example, you might comment on how you are going to use lenses and aperture to achieve a particular look. If you are using a microphone to capture dialogue or sound effects, you might comment on how you will configure it correctly when recording these sounds.

Planning the experiments

- **Media processes.** Explain how you intended to use and develop your understanding of media processes, such as editing or colour correction, in the completion of this exercise.
- **Planning documentation.** Your production exercise must include any planning documentation, such as scripts, shotlists and storyboards.

Documenting the experiments

- **References.**

If you are exploring new techniques and processes in the completion of your experiments, it might be necessary to find out further information from manuals, books or online tutorials. In your intention, provide a commentary on how you intend to use these resources when completing your production exercise. Include an alphabetised list of resources at the end of your intention.

It is also important that you don't just 'cut and paste' the reference into your production design. Discuss how it has helped you complete your exercises.

Documenting the experiments

- Keep a record of what you are doing while you complete your production experiments. This might include diagrams, photographs, screenshots, notes or technical details such as camera aperture, focal range and shutter speeds.

Evaluating the experiments

- The evaluation of your production exercise is a summary of what you have learned by undertaking the exercise. It is not sufficient to simply say you achieved your intention. A good evaluation will provide a detailed commentary on the aesthetic qualities, technical equipment and media processes that you explored.

Writing your evaluation

- **Style and aesthetic qualities.** How well did you achieve the style or aesthetic qualities that you hoped to achieve? How will you use or modify this approach in your production?
- **Technical equipment.** What did you learn about the operation of technical equipment? Technically, what do you need to be more aware of for the production? Are there issues you need to address before undertaking the production?

Writing your evaluation

- **Media processes.** Do you need to modify or change your approach to media production processes? Is there a better way to go about your production? What do you need to learn more about?
- **Further research.** If you faced difficulties in the completion of your production exercise, explain how you will address this when you complete your production.
- **Further experimentation.** Can you use this as the basis for another exercise.

Media production design

Learning outcomes and contents

Media production design

Media production designs are a set of **written and visual documents** that detail the stages of production of a proposed product. The production design communicates both creative vision and thorough planning. The media industry has **specific methodologies, conventions and workflow** for documenting media production in different media forms. These methods vary from form to form and within forms according to the style and/or genre of the proposed product.

Audience engagement consumption and reception is at the heart of media production. A feature common to production design across media forms is a clear understanding of the proposed audience/s. Audiences may be delineated by demographic or social factors, identified by their interests and experience in media works, forms, genres or styles, or created by media institutions or individual producers for a particular purpose. Detailed articulation of audience/s and how they will be engaged underpins all aspects of a media production design.

Informed by their learning in Area of Study 2, students use **industry specific design and planning**, both in written and visual documentation, to complete a media production design. The design incorporates a **clear fictional and/or non-fictional narrative for a specified audience** in a selected media form as outlined below. Students take into account the relevant media codes and conventions of the selected media form. The production design is developed for one of the following media forms:

Outcome 3

On completion of this unit the student should be able to develop and document a media production design in a selected media form for a specified audience.

To achieve this outcome the student will draw on key knowledge and key skills outlined in Area of Study 3.

Key knowledge

- methods for documenting the specified audiences, narrative and intention of the proposed production
- media codes and conventions, technologies and processes relevant to the selected media form, proposed audience, narrative and production
- methods for creating written and visual representations of a proposed production
- methods for documenting details of production and post-production roles, tasks and timelines
- media language relevant to the design and production of a media product in a selected media form.

Key skills

- document the specified audience, narrative and intention relevant to a selected media form and product
- apply media codes and conventions, technologies and production processes appropriate to the selected media form, proposed audience, narrative and product
- create written and visual representations of a proposed production
- document production and post-production roles, tasks and timelines
- use media language appropriate to the design and production of a media product in a selected media form.

Film

- **Intention.**
- **Audience.**
- **Narrative.**
- **Style.**
- **Written:** log line, story question, treatment, screenplay, shot list.
- **Visual:** storyboards.
- **Codes and Conventions:** camera techniques, acting, mise en scene, editing, lighting, sound, genre conventions.
- **Roles, tasks, timelines.**

PROTAGONIST is sitting on the floor on the side of the hallway. TEN walks up to PROTAGONIST

#2 - FS POV
TEN walks down the hallway alone.

#3 - CU
High angle looking down. Dialogue lines that PROTAGONIST says

#4 - CU
Low angle looking up. TEN dialogue lines

#5 - ECU
Handshake

#6 - ECU
Gun looking object in bag

SCENE 16

#7 - ECU
PROTAGONIST is shocked after seeing the gun

#1 - CU
Static over the shoulder shot of Counsellor's lines from Protagonist's side

SCENE 17

#1 - LS
Bird's-eye Montage of PROTAGONIST in room freaking out. Tossing and turning in bed

#2 - CU
PROTAGONIST sits up.

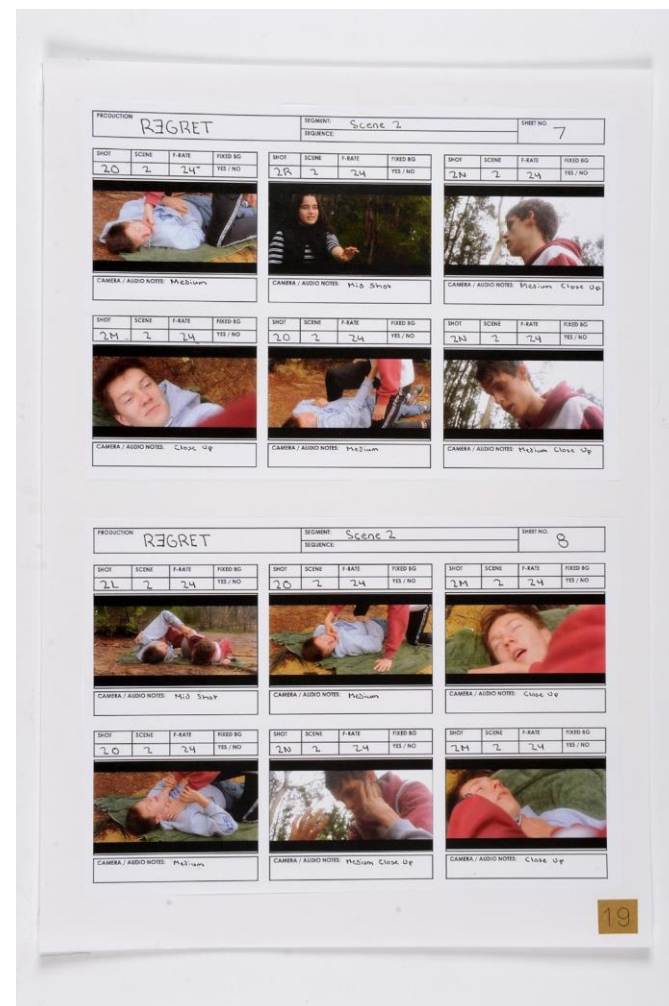

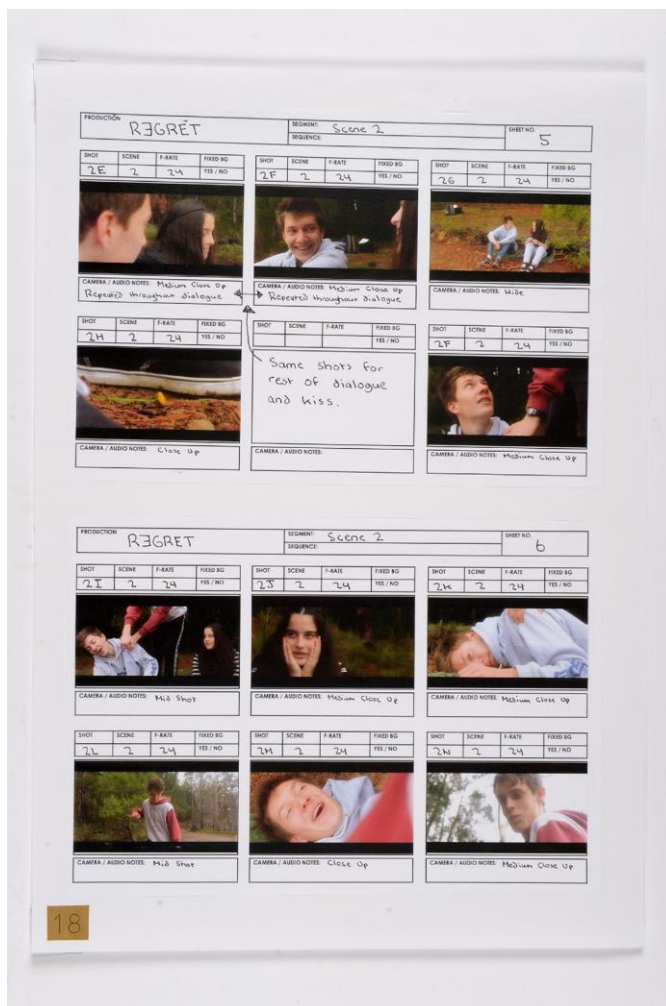

#3 - ECU
Gun being slipped into bag

POST PRODUCTION

I swapped the gun for a knife as it would be more likely to get a knife as a student than a gun. It was also easier to find knife props than a good looking gun prop.

49

Media process

Learning outcomes, production
timelines

Media production

The production, post-production and distribution stages of a media product are a natural progression from the pre-production stage of the media production process. Students move from production into post-production where the manipulation, arrangement or layering of the ideas and material generated in pre-production and production leads to the realisation of their production design.

Media creators and producers reflect on and work with others to gain insight into whether their products communicate their planned intent, refining their products in the production and post-production stages. Students undertake personal reflection and seek feedback on their work, developing, refining and resolving their product as a result. They document iterations of their production after considering the factors that have influenced the development, refinement of materials, technologies and processes, the resolution of ideas and the effect they have had on the final product.

The creation and production of the media product is an individual undertaking. In some cases the implementation of the production design may require the student to work with others. Throughout both the production and post-production stages, the student should be the key principal in the production process. All work undertaken by any cast or crew or external assistance must be under the direction of the student and documented in the media production design plan.

Outcome 1

On completion of this unit the student should be able to produce, refine and resolve a media product designed in Unit 3.

Key knowledge

- production and post-production processes used to realise a media production design
- the operation of equipment, materials and technologies used in the creation of media products
- media codes and conventions relevant to the selected form, product and audience
- reflection and feedback processes to refine and resolve media products
- methods for documenting development, refinement and realisation of media products
- media language appropriate to the construction and evaluation of media representations.

Key skills

- realise a media production design through production and post-production processes
- operate equipment, materials and technologies in the production of a media product
- apply media codes and conventions relevant to the selected media form, product and audience
- use reflection and feedback to refine and resolve a media product
- document the development, refinement and resolution of a media product
- use media language relevant to the construction and evaluation of media representations.

Sample Production Timeline

- **NOTE:** Students will commence their production in Unit 4.
- **Holidays:** Filming.
- **Week 2:** Complete cut due.
- **Week 4:** SAT Due.

Feedback

Feedback

School Assessed Task Feedback

Before developing your idea further, seek feedback from at least one other person. This should be someone that you think will give honest and detailed feedback on your idea. The process of talking about your idea will draw your attention to its strengths and weaknesses.

Before the interview. Select the best idea from your brainstorming and write a detailed synopsis of the concept. This should include not only what you plan to include in your film but how you plan to make it. Explain the idea as clearly as possible.

During the interview. Select someone who will give you honest and detailed feedback. Pitch them your idea and ask them the provided questions. It is your responsibility to write down answers during the interview. They are doing you a favour by volunteering to hear your idea. This discussion should take at least twenty minutes. Use a pen and paper to take notes and record the conversation using a smartphone/audio recorder to record the conversation.

After the interview. Directly after the interview, write up responses to each of the questions while it is still fresh in your mind. Photograph or scan notes and add them to your production design plan. You can also add any audio recordings of the conversation. When you are done, write a detailed reflection on how you plan to improve your idea based on this feedback.

1. Summarise the idea for your film.

School Assessed Task Feedback

Name:

Questions

1. Identify three strengths of this idea - these might include scenes, characters or aspects of the production you think are interesting.
2. What are one aspects of the production that could be improved?
3. Do you see any problems that might occur during the production?
4. As a viewer what are three things that would make this a better film?
5. What other suggestions or ideas do you have?

Feedback

PEER FEEDBACK
(4/June/2015)

9.5

DATE: 4/6/15

Assessing the School Assessed Task

Extended assessment criteria,
sample assessment

10-point marking scale

- The key to understanding assessment criteria is in the degree of performance.

VCE Media: School-Assessed Task Assessment Sheet 2018

Assessment criteria	Levels of Performance					
	Not shown	1–2 Very low	3–4 Low	5–6 Medium	7–8 High	9–10 Very high
Unit 3 Outcome 2 1. Exploration and research of relevant aspects of a media form to inform and document the design of a media production		<p>Very limited evidence of an exploration of a media form that informs the development of ideas and skills in a media form.</p>	<p>Limited evidence of an exploration of media form(s), that informs the development of ideas and skills in a media form.</p>	<p>Evidence of a sound exploration of media form(s) that informs the development of ideas and skills in a selected media form.</p>	<p>Evidence of a detailed exploration of media form(s) that informs the development of ideas and skills in a selected media form.</p>	<p>Evidence of comprehensive exploration of a media form(s) that informs the development of ideas and skills in a selected media form.</p>
		<p>Very limited exploration of aspects of codes, conventions, narrative, genre and style in media products.</p>	<p>Limited exploration, with some relevance, of codes, conventions, narrative, genre and style in media products.</p>	<p>Sound and relevant exploration of codes, conventions, narrative, genre and style in media products.</p>	<p>Detailed and relevant exploration of codes, conventions, narrative, genre and style in media products.</p>	<p>Comprehensive and consistent exploration of codes, conventions, narrative, genre and style in media products.</p>
		<p>Very limited evaluation of the development of ideas and skills used in media products in the selected media form.</p>	<p>Some evaluation of the development of ideas and skills used in media products in the selected media form.</p>	<p>Satisfactory evaluation of the development of ideas and skills used in media products in the selected media form.</p>	<p>Detailed evaluation of the development of ideas and skills used in media products in the selected media form.</p>	<p>Thorough evaluation of the development of ideas and skills used in media products in the selected media form.</p>
		<p>Very limited analysis of how audiences are engaged by and use structural and aesthetic qualities to read media products and to inform the development of ideas and skills in the selected media form.</p>	<p>Limited analysis of how audiences are engaged by and use structural and aesthetic qualities to read media products and to inform the development of ideas and skills in the selected media form.</p>	<p>Sound analysis of how audiences are engaged by and use structural and aesthetic qualities to read media products and to inform the development of ideas and skills in the selected media form.</p>	<p>Detailed analysis of how audiences are engaged by and use structural and aesthetic qualities to read media products and to inform the development of ideas and skills in the selected media form.</p>	<p>Comprehensive analysis of how audiences are engaged by and use structural and aesthetic qualities to read media products and to inform the development of ideas and skills in the selected media form.</p>
		<p>Limited evidence of the use of media equipment, technologies, and processes.</p>	<p>Some evidence of the organised use of media equipment, technologies, and processes.</p>	<p>Evidence of appropriate and thoughtful use of media equipment, technologies, and processes.</p>	<p>Evidence of thorough and purposeful use of media equipment, technologies, and processes.</p>	<p>Evidence of comprehensive and focused use of media equipment, technologies, and processes.</p>
		<p>Very limited use of methods for recording, documenting and evaluating research and experimentation with limited use of media language to develop ideas and skills in the selected media form.</p>	<p>Limited use of methods for recording, documenting and evaluating research and experimentation with limited use of media language to develop ideas and skills in the selected media form.</p>	<p>Sound use of methods for recording, documenting and evaluating research and experimentation including the use of relevant media language to develop ideas and skills in the selected media form.</p>	<p>Effective use of methods for recording, documenting and evaluating research and experimentation including thorough use of media language to develop ideas and skills in the selected media form.</p>	<p>Highly effective use of methods for recording, documenting and evaluating research and experimentation including comprehensive use of media language to develop ideas and skills in the selected media form.</p>
	0 <input type="checkbox"/>	1 <input type="checkbox"/> 2 <input type="checkbox"/>	3 <input type="checkbox"/> 4 <input type="checkbox"/>	5 <input type="checkbox"/> 6 <input type="checkbox"/>	7 <input type="checkbox"/> 8 <input type="checkbox"/>	9 <input type="checkbox"/> 10 <input type="checkbox"/>

VCE Media: School-Assessed Task Assessment Sheet 2018

Assessment criteria	Levels of Performance					
	Not shown	1–2 Very low	3–4 Low	5–6 Medium	7–8 High	9–10 Very high
Unit 3 Outcome 2 2. Experimentation and documentation of the use of relevant media equipment, technologies and processes to inform the design of a media production		Very limited production skills demonstrated in the operation of some media equipment, materials, applications and/or technologies in a media form. Very limited exploration of some media codes and conventions, narrative structure(s), genre, and styles in a media form. Very limited analysis of how audiences are engaged by and read aesthetic and structural qualities in the production exercises in a selected media form. Very limited evidence and evaluation, using very limited media language of experimentation and/or the development of skills.	Limited production skills demonstrated in the operation of some media equipment, materials, applications and/or technologies in a media form. Limited exploration of some media codes and conventions, narrative structure(s), genre, and styles in a media form. Limited analysis of how audiences are engaged by and read aesthetic and structural qualities in the production exercises in a selected media form. Limited evidence and evaluation, using limited media language of the experimentation in and/or development of skills.	Sound production skills demonstrated in the operation of media equipment, materials, applications and/or technologies in a selected media form. Sound exploration of relevant media codes and conventions, narrative structure(s), genre, and styles appropriate to the selected media form. An appropriate analysis of how audiences are engaged by and read aesthetic and structural qualities in the production exercises in a selected media form. Sound evidence and evaluation, using media language of the experimentation in and development of skills.	Detailed production skills demonstrated in the operation of media equipment, materials, applications and/or technologies in a selected media form. Thorough exploration of relevant media codes and conventions, narrative structure(s), genre, and styles appropriate to the selected media form. Thorough analysis of how audiences are engaged by and read aesthetic and structural qualities are read and engaged by audiences in the production exercises in a selected media form. Detailed evidence and insightful evaluation, using media language of the experimentation in and development of skills.	Complex production skills demonstrated in the operation of media equipment, materials, applications and/or technologies in a selected media form. Comprehensive exploration of relevant media codes and conventions, narrative structure(s), genre, and styles appropriate to the selected media form. Comprehensive analysis of how audiences are engaged by and read aesthetic and structural qualities in the production exercises in a selected media form. Comprehensive evidence and insightful evaluation , using media language of experimentation in and development of skills.

Assessment criteria	Levels of Performance					
	Not shown	1–2 Very low	3–4 Low	5–6 Medium	7–8 High	9–10 Very high
Unit 4 Outcome 1 5. Application of codes and conventions relevant to the completed media product.		Use of media codes and conventions demonstrates a limited understanding of the media narrative(s), styles(s) and/or genre(s) appropriate to the media product.	Use of media codes and conventions demonstrates some understanding of the media narrative(s), styles(s) and/or genre(s) appropriate to the media product.	Relevant application of media codes and conventions demonstrates a sound understanding of the media narrative(s), styles(s) and/or genre(s) appropriate to the media product.	Consistent application of media codes and conventions demonstrates a thorough understanding of the media narrative(s), styles(s) and/or genre(s) appropriate to the media product.	Highly accomplished and insightful application of media codes and conventions demonstrates a sophisticated and creative understanding of the media narrative(s), styles(s) and/or genre(s) appropriate to the media product.
		Application of media codes and conventions demonstrates very limited relevance to the engagement or reception of the selected audience for the media product.	Application of media codes and conventions demonstrates little relevance to the engagement or reception of the selected audience for the media product.	Relevant application of media codes and conventions demonstrates some relevance to the engagement and reception of the selected audience for the media product.	Consistent application of media codes and conventions demonstrates a strong relevance to the engagement and reception of the selected audience for the media product.	Highly accomplished and insightful application of media codes and conventions demonstrates very strong relevance to the engagement and reception of the selected audience for the media product.
	0 <input type="checkbox"/>	1 <input type="checkbox"/> 2 <input type="checkbox"/>	3 <input type="checkbox"/> 4 <input type="checkbox"/>	5 <input type="checkbox"/> 6 <input type="checkbox"/>	7 <input type="checkbox"/> 8 <input type="checkbox"/>	9 <input type="checkbox"/> 10 <input type="checkbox"/>

Assessment criteria	Levels of Performance					
	Not shown	1–2 Very low	3–4 Low	5–6 Medium	7–8 High	9–10 Very high
Unit 4 Outcome 1 6. Realisation of a media product appropriate to the intention and audience.		<p>A product that demonstrates very limited consistency appropriate to the selected media form, style, narrative, product and audience.</p> <p>Ideas and concepts show little resolution in the media product. It may not meet the intention for the selected audience(s).</p>	<p>A product that is generally consistent in its execution appropriate to the selected media form, style, narrative, product and audience.</p> <p>The communication of ideas and concepts is evident in a media product that addresses some of the intention for the selected audience(s).</p>	<p>A clearly developed product that demonstrates consistency in its execution appropriate to the selected media form, style, narrative, product and audience.</p> <p>The communication of ideas and concepts is achieved in a media product that realises the intention for the selected audience(s).</p>	<p>A well-developed product that demonstrates coherence in its execution appropriate to the selected media form, style, narrative, product and audience.</p> <p>Thoughtful and effective communication of ideas and concepts is achieved in a media product that effectively realises the intention for the selected audience(s).</p>	<p>A sophisticated product that demonstrates a sense of coherence in its execution and is highly appropriate to the selected media form, style, narrative, product and audience.</p> <p>Highly effective and skilful communication of ideas and concepts is consistently achieved in a media product that effectively realises the intention for the selected audience(s).</p>
	0 <input type="checkbox"/>	1 <input type="checkbox"/> 2 <input type="checkbox"/>	3 <input type="checkbox"/> 4 <input type="checkbox"/>	5 <input type="checkbox"/> 6 <input type="checkbox"/>	7 <input type="checkbox"/> 8 <input type="checkbox"/>	9 <input type="checkbox"/> 10 <input type="checkbox"/>

Lessons from the Season of Excellence

Stuff worth knowing

General Advice

- **Scrapbooking.** Don't decorate your design plans. Likewise, this isn't an exercise in cut'n'paste.
- **Retrospective design plans.** A good strategy to avoid this is signing and dating every page or commenting on it.
- **Storage.** Store design plans, production exercises and products together to avoid lost work.
- **Incomplete design plans.** It was disappointing that some design plans for selected works were incomplete.

Season of excellence

- As students, you can learn a lot from the work you will see as part of the Season of Excellence, including Top Screen and Top Design.
- The selection panel is privileged to see over 400 pieces of work from around the state.
- We'd like to share advice for making a successful narrative film, documentary, music video, series of photographs or print production.

Narrative films

- **Tell a story.** The most successful films told clear and engaging stories. Stories must begin with a complication and have a satisfying resolution. Don't begin a film with the character's morning routine.
- **Keep it short.** The best ten minute film is a six minute film.

Documentaries

- **Subject matter.** Students should look towards their local communities for compelling subject matter and stories.
- **Tell a story.** Tell a clear and compelling story instead of just cutting between talking heads.
- **Hook the audience.** Begin with an engaging revelation to hook the audience.
- **Be sensitive.** Always be mature and sensitive when dealing with issues such as mental illness or homelessness.
- **Interview shot.** The most important shot in your documentary, make sure it looks good!
- **B-roll.** Well-composed, interesting b-roll which contributes to the story will make your documentary shine.

Music videos

- **Be visual.** Effective music videos adopted a consistent aesthetic suited to the style of music.
- **Copyright.** It was commendable that so many students created music videos for local bands or songs they had written. Think carefully about the copyright of the track you select.

Photography

- Ideas. Don't limit yourself to fine art photography.
- Research. Find inspiration by researching notable photographers and styles.
- Tell a story. Remember that your photographs must tell a story whether overt or implied.
- Be consistent. Ensure that a series is thematically or visually consistent.
- Know your camera. Successful students show a high degree of technical ability, controlling focus, aperture, ISO, white balance, lighting and flashes.
- Plan. Good mockups not only gave a sense of composition but also technical considerations such as ISO, shutter speed and aperture.

'Jealousy'

COMPOSITION ①

- hands in front of her face reaching up
↳ paint dripping down from hands
- only hands in focus (face blurred)
↳ small DoF, aperture $F/4$
- shutter speed: medium/fast ($1/200$) (no tripod)
- lighting from above so the hands make shadows on the face
- portrait
- only hands and face are out of the milk

- only hands in shot reaching towards food colouring
- close cropping
- portrait (most of the hands less colour)
- landscape (more colour less hands)
- lighting directly over the hands (minimal shadows)
- shutter speed: medium/fast ($1/200$) (no tripod)
- aperture: $F/8$
- milk very opaque so that the food colouring doesn't sink

↑ what the food colouring looks like

COMPOSITION ②

'defeat'

COMPOSITION ①

- most of her face will be under the water
↳ looks like she is sinking into the milk
- either shot from above or on a slight side angle
- model in the top half of the image
- only colour is on the model
- portrait orientation
- shutter speed: medium/fast ($1/200$) (no tripod)
- aperture: $F/8$
- lighting directly on model (minimal shadows)
- mostly negative space

- strong shadows across one side of the face
- shot from higher up allowing for more negative space
- only head out of water, head tilted slightly back
- shot very slightly from the side/underneath
- only colour is on the model
- shutter speed: medium/fast ($1/200$) (no tripod)
- aperture: $F/8$
- portrait orientation
- mostly negative space

COMPOSITION ②

Print

- Codes. The most effective print productions showed a keen awareness of how image, colour, typography and layout can be used to communicate meaning.
- Conventions. Use the conventions of print - such as white space, margins, gutters, drop caps - in a manner consistent with your intention.
- Master pages and styles. Use styles, master pages and guides to ensure that your magazine has consistent and appropriate layout.
- Typography. Use typography in a manner consistent with the conventions of your selected genre.
- Photographs. You are strongly encouraged to take your own photographs.

angels tears

the night was silent
 he held her there
 his breath tickled her ear
 his words touched her soul
 cry me a universe darling
 i'll make your tears like stars
 that night one angel cried enough tears
 to create a starry heavens all of her own

-e.b

Copyright

- Use original music, public domain, creative commons and royalty free music.
- For use outside of assessment you must have copyright clearance for third party materials.
- For Top Screen you must have written permission to use the copyrighted material at Top Screen at ACMI, Top Designs at the Museum and the Top Screen DVD.
- Obtaining permission can be a long, difficult and potentially expensive experience. Seriously...why would you even?
